Marble Run Challenge

The Brief

Use a cardboard box and cardboard struts to make a marble run. The most original, creative and exciting run will win the prize!

The Method

1. Use tape to attach the cardboard struts to the cardboard box, creating a run for the marble.
2. Use toilet tubes to make runs
3. The marble has to run from the top to the bottom so make sure the struts and tubes are angled

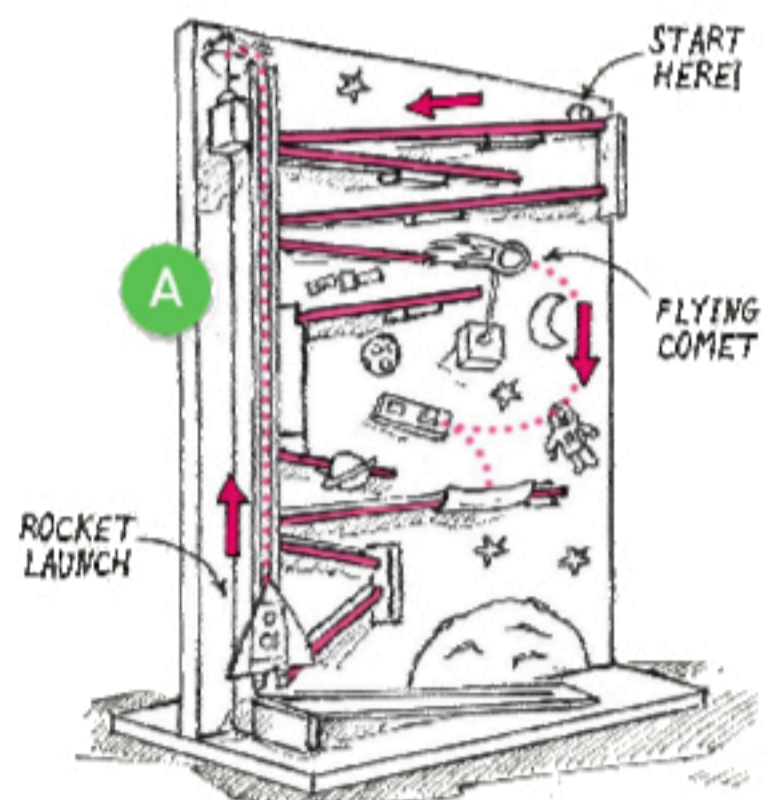

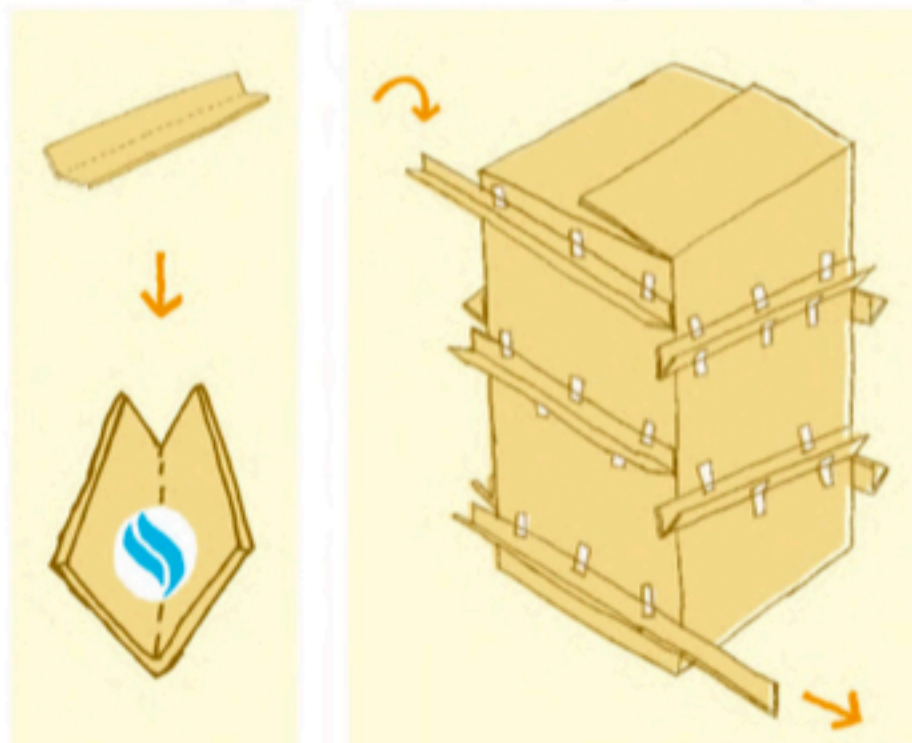

You will need:

- A large cardboard box/ toilet roll tubes
- Scissors
- Tape
- 1 marble (provided inside your Sandhill View bag)
- A camera to record your marble run and submit your entry

Top Tip!

If you can't find cardboard struts, make your own by folding four inch wide strips of cardboard in half to create a V shape.

There are loads of videos on YouTube to give you inspiration.

Submit your video entry to:
