Dear Parent/Carer

Responsible use of the internet

Sandhill View Academy is providing the opportunity for pupils to use the internet to develop their computer skills and improve their learning. Pupils will be able to access educational websites from around the world and may be able to exchange electronic mail.

You may have concerns about your child seeing undesirable material and Sandhill View shares those concerns. We have already adopted and will continue to develop measures for safe internet use. The internet provider we use prevents access to known inappropriate material. Pupils will only use the internet when closely supervised by a teacher. The internet will only be available on computers whose screens are in open view. Pupils will follow the Sandhill View internet code, a copy of which can be found on our school website.

Personal security – passwords.

Pupils can save their work on the school network. To keep their password safe, each pupil needs to type in a password which is secret to them.

Should you wish to discuss Internet use at Sandhill View Academy please contact the school.

Yours sincerely,

Mrs J Dodd
Headteacher

I have read the Sandhill View Academy internet code and would like my child to take part in supervised internet activities.
